

# Field Emergency Operations Center™

Scalable Incident Command System & Decision Support Tools

**fieldeoc.com**

Ensuring the continuity of both routine and emergency operations is vital to the sustainability and resiliency of a community.

Field Emergency Operations Center™ (FieldEOC™) - simplifies localized emergency response, equipping your emergency response organization with mission-critical, computer-based emergency support tools, to strategically support the incident commander during all events, assuring that information regarding situational awareness can flow freely and in real time. Improve response & restoration times for an event. Augment local emergency response capabilities. Demonstrate greater independence.

Fully equipped packages, a-la-cart add-ons, easy to use, and mobilized within minutes, FieldEOC™, fueled by Fail Safe Technologies LLC, is always ready for any type of what-if scenario and able to exercise scalability to adapt to ever evolving situations and incidents.

## Why Field Emergency Operations Center™

### Incident Command

Command, Communications, Finance & Admin, Intelligence, Logistics, Operations, Planning, Public Safety (Fire / Law Enforcement / Medical)

Threatened or actual disasters caused by natural, technological and human-caused hazards

### Tactical

On-Scene Dispatch, Alternate/Backup Console, Search & Rescue, ARES/RACES, Hazmat, Medical, IMT Post

Mass Casualty Incident Triage, Hostile Events, Cold Zones, Unified Command

### Routine

Realtime Situational Awareness, Asset & Resource Management, Rapid, Redundant & Resilient Sites  
Community Events, Sporting Venues, Parades

Government Facilities, Educational & Medical Campuses, Business Continuity, Crowds, First Aid

### Exercises & Training

Training Compliance, Multi-Jurisdictional Interoperability, Full-Scale Exercises, Functional Exercises, Operations Based & Drills, Games

Nearly all emergencies, disasters & events begin and end at the local level. Localized emergency response is vital to the success of the national response framework, and is a shared multi-agency responsibility; coordinating and integrating all activities necessary to build, sustain, and improve the capability to mitigate against, prepare for, respond to, and recover from threatened or actual disasters caused by natural, technological and human-caused hazards.

## What is Field Emergency Operations Center™

### Situational Awareness

Status Boards, Real-Time Multimedia Displays, Source Switching

### Redundant

Broadband Failover, Communication Channels

### Resilient

Wireless MESH Networks, Mission-Critical IT Assets, On & off the Grid Solutions

### Interoperable

Bring Your Own Device, Industry Standardized Tech, Accurate, Effective, Consistent

### Portable

Always Ready, Anytime, Anywhere, Infrastructure Independent

### Scalable

Flexible & Adaptable Tech, Ready for the Unknown, For Size and Complexity

### Mission Ready

Command Posts, Bases, Staging Areas, Triage, Communications

### Intuitive Ops

Organized, Standardized, Unified Resources, Digitized Objective Management

### Prioritize

Response, Resource Allocation, Requests

### Digital Accountability

Resource Tracking, Check-In, Incident Action Planning, Span of Control

### Be Informed

Collect & Disseminate Info, Action Planning, Comprehensive Resources

### Develop

Strategies & Policies, Actionable Info
